HIOKI

AC CLAMP METER

Rugged & Compact, Essential Equipment for Professional Electricians: Measure Current and Voltage with a Single Instrument

Hioki clamp meters are best-in-class measuring devices incorporating Hioki's expertise in current sensing technology. The 3280-10F is an average rectifying 1000A AC clamp meter that features a broad operating temperature range of -25°C to 65°C, thin and compact clamp core and optional flexible current sensor that you can attach to let you get into the tightest spots.- Measure the fundamental waveform component using the average rectified method

Features:

- Expanded -25 °C to 65 °C operating temperature range
- Connect the CT6280 flexible sensor to measure up to 4199 A in thick or paired wires
- Drop proof design withstands drop from a height of 1 meter

SK

WEDGE BELTS SPB

Optibelt has manufactured - based on meanwhile far more than one hundred years of experience in rubber processing - transmission belts in a broad range of variants since 1948.

Continuous investment in material research and production technology as well as an increasing knowledge about the conditions prevailing in the different applications had the result that, thanks to the improvement of the belt to a high-tech transmission element, the performance limits of the machines were extended.
