MINUMAN ISOTONIK

POCARI SWEAT is a mild tasting, refreshing drink which replenishes body fluids lost through perspiration. It is quickly absorbed into the body. It is thus recommended as a beverage for physical activities such as sports and exercise.

The most notable thing about Pocari Sweat is what's inside the product. Aside from water, Pocari Sweat also contains electrolyte minerals such as, Magnesium, Sodium, Potassium and Calcium. These electrolytes are lost by the body during perspiration. It is not enough to drink water alone because these electrolytes should be replenished to prevent spontaneous dehydration.
